## CLARIFICATION DU REGLEMENT RELATIF A L'EXTENSION DES DROITS SUITE A UNE NOUVELLE ADHESION A L'ACCORD DE BANGUI

### RESOLUTION N°47/32

#### LE CONSEIL D'ADMINISTRATION DE L'ORGANISATION AFRICAINE DE LA PROPRIETE INTELLECTUELLE

Vu L'accord portant révision de l'accord de Bangui du 02 Mars 1977 instituant une Organisation Africaine de la Propriété Intellectuelle et ses annexes ;

Vu Les dispositions des articles 18 et 19 dudit Accord relatives Aux attributions et pouvoirs du Conseil d'Administration ;

**ADOPTE** la clarification du règlement du 04 décembre 1988 relatif à l'extension des droits suite à une nouvelle adhésion à l'Accord de Bangui ci-après :

#### **Article 1er** :

Le Règlement du 04 décembre 1988 relatif à l'extension des droits suite à une nouvelle adhésion à l'Accord de Bangui est réaménagé ainsi qu'il suit :

#### **« Article 5 (nouveau) »** :

Les titulaires des titres en vigueur à l'Organisation avant la production des effets de l'adhésion d'un Etat à l'accord de Bangui ou ceux dont la demande a été déposée avant cette

date et qui voudront étendre la protection dans ces Etats doivent formuler une demande d'extension à cet effet auprès de l'Organisation suivant les modalités fixées aux articles 6 à 18 ci-dessous.

Le renouvellement de la protection des titres qui n'ont pas fait l'objet d'extension avant l'échéance dudit renouvellement entraîne une extension automatique des effets de la protection à l'ensemble du territoire OAPI».

Le reste sans changement.

#### **Article 2** :

La présente clarification, qui entre en vigueur à compter du 1<sup>er</sup> janvier 2008, s'applique aussi aux demandes d'extension en instance et sera publiée au Bulletin Officiel de l'Organisation.

Fait à Bangui le 17 décembre 2007

utility tokens; downloadable software for electronic wallet services; downloadable e-wallets; distributed ledger platform software; software for use with distributed ledger technology; downloadable software which facilitates the ability of users to view, analyze, record, store, monitor, manage, trade and exchange digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; downloadable software for sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; downloadable software for implementing and recording financial transactions; downloadable software for use in financial trading; downloadable software for use in financial exchange; downloadable software for accessing financial information and market data and trends; downloadable software for providing authentication of parties to a financial transaction; downloadable software for maintaining ledgers for financial transactions; downloadable software for the management of cryptographic security of electronic transmissions across computer networks; downloadable software for encrypting and enabling secure transmission of digital information over the internet; downloadable software for allowing users to calculate parameters related to financial transactions; downloadable software for electronic funds transfer; downloadable software for currency conversion; downloadable software for the collection and distribution of data; downloadable software for payment transactions; downloadable software for connecting computers to local databases and global computer networks; downloadable software for creating searchable databases of information and data; downloadable software for managing and validating digital currency, virtual currency, cryptocurrency, digital asset, blockchain asset, digitized asset, digital token, crypto token and utility token transactions; downloadable software for creating and managing smart contracts; downloadable software for managing payment and exchange transactions; downloadable software and hardware for use as a digital currency wallet, virtual currency wallet, digital asset wallet, crypto token wallet, and utility wallet; downloadable software for creating a decentralized and open source digital currency,

virtual currency, cryptocurrency, digitized assets, digital token for use in blockchain-based transactions; computer application software for blockchain-based platforms, namely, software for digital exchanges for virtual items; downloadable software for creating, selling and managing blockchain-based tokens or appcoins; downloadable software for use in an electronic financial platform; downloadable software for processing electronic payments and for transferring funds to and from others; blockchain platform software; downloadable software for use in the management and implementation of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token transactions; downloadable software for creating and managing a blockchain platform for use in managing digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; downloadable software for managing crypto currency and digital currency accounts; downloadable software for use in payments, purchases, and investments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; downloadable software for use in managing the conversion of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens into hard currency; downloadable software for developing, deploying, and managing software applications, and integrating software applications for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; downloadable software and hardware for use in electronically exchanging currency for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; downloadable software for use as an application programming interface (API) for the development, testing, and integration of blockchain software applications; computer hardware for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, and digitized asset mining; security token hardware; electronic currency converters; downloadable software, namely, electronic financial platform that accommodates multiple types of payment and

transactions in an integrated mobile phone, personal digital assistant (PDA), and web-based environment; downloadable software for creating tokens to be used to pay for products and services, and that may be traded or exchanged for cash value; downloadable software for managing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized asset, digital token, crypto token and utility token payments, money transfers, and commodity transfers; downloadable software for use as an application program interface (API) software for use in computer hardware device identification; downloadable software for use in authenticating user access to computers and computer networks; downloadable software for use in facilitating secure transactions; downloadable software for use in accessing, reading, tracking, and using blockchain technology; downloadable software and hardware for managing identity information, access rights to information resources and applications and authentication functionality; downloadable software for network identification verification, authentication and management services for security purposes; downloadable authentication software for controlling access to and communications with computers and computer networks; magnetically encoded credit cards and payment cards; encryption devices; security tokens; downloadable software for use as a security token; downloadable software used in issuing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; crypto tokens and utility tokens; downloadable software used in auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; ad server, namely, a computer server for storing advertisements and delivering advertisements to websites; altimeters; application programming interface (API) for computer software for developing and creating virtual reality, augmented reality and mixed reality experiences; application programming interface (API) for computer software which facilitates online services for social networking and for data retrieval, upload, download, access and management; application programming interface (API) for software which facilitates online services for social networking and for data retrieval, upload, download, access and management;

application programming interface (API) for use in building software applications; augmented reality glasses; augmented reality headsets; augmented reality software; augmented reality software for interactive entertainment; augmented reality software for navigating an augmented reality environment; augmented reality software for object tracking, motion control and content visualization; augmented reality software for operating augmented reality headsets; augmented reality software for users to experience augmented reality visualization, manipulation and immersion; cables, namely, electronic cables and connection cables; cases, straps, wrist and arm bands for electronic monitoring devices; computer application software for smartphones and mobile devices in the fields of fitness and exercise featuring personal training services, coaching, workouts and fitness assessments; computer application software for use in connection with configuring and controlling wearable computer hardware and wearable computer peripherals; computer hardware for displaying data and video; computer hardware for use in measuring heart rhythm; computer hardware for use in taking electrocardiograms; computer operating system software; computer peripheral equipment for use with smartwatches, namely, smartwatch bands and smartwatch straps; computer peripherals for displaying data and video; computer peripherals for mobile devices for displaying data and video, namely, peripherals worn on the head for mobile devices for displaying data and video; computer peripherals for mobile devices for remotely accessing and transmitting data, namely, peripherals worn on the head for mobile devices for remotely accessing and transmitting data; computer peripherals for mobile devices, namely, electronic devices, monitors, sensors, and displays for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, weather information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data; computer peripherals for remotely accessing and transmitting data; computer software and computer application software for mobile phones and personal digital devices that provides a fitness assessment and fitness score by comparing previous athletic performances and fitness levels with future athletic performances and fitness levels, and

provides advice and customized workouts for improving in specific areas of a particular sport or fitness activity; computer software and computer application software for mobile phones and personal digital devices that monitor, track, and compare sport activity and fitness level; computer software and computer application software for mobile phones and personal digital devices that evaluates a user's fitness level and athleticism, and provides fitness scores; computer software and computer application software for mobile phones and personal digital devices that provides tips, coaching, and personalized workouts, to improve the user's fitness score; computer software and computer application software for mobile phones and personal digital devices for communicating with gaming consoles, personal computers, personal digital devices, and mobile phones, regarding time, pace, speed, steps taken, athletic skill, calories burned, agility, motion, balance, coordination, and flexibility; computer software and computer application software for mobile phones and personal digital devices for monitoring, uploading, and downloading data regarding sport activity, fitness training, and fitness level to the internet and other computer and electronic communication networks; computer software and computer application software that detects user's movements during physical activity, fitness sessions, workouts, to provide personalized fitness scores and assessments; computer software and firmware, namely, operating system programs, database synchronization software, and data synchronization programs; computer software development tools; computer software for accessing, browsing and searching online databases; computer software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, images, audio, video, and multimedia content; computer software for communicating with gaming consoles regarding time, pace, speed, steps taken, athletic skill, calories burned, agility, motion, balance, coordination, and flexibility; computer software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and

multimedia content, and electronic publications, and electronic games; computer software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer the internet and communication networks; computer software for creating, managing, and interacting with an online community; computer software for fitness and weight management; computer software for fitness, fitness assessments, and sport activities; computer software for integrating electronic data with real world environments for the purposes of entertainment, communicating, and social networking; computer software for managing information regarding tracking, compliance and motivation with a health and fitness program; computer software for modifying and enabling transmission of images, audio, audio visual and video content and data; computer software for modifying photographs, images and audio, video, and audio-visual content with photographic filters and virtual reality, mixed reality and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; computer software for monitoring, processing, displaying, storing and transmitting data relating to a user's physical activity; computer software for processing images, graphics, audio, video, and text; computer software for sending and receiving electronic messages, graphics, images, audio and audio visual content via computer the internet and communication networks; computer software for sending and receiving electronic messages, alerts, notifications and reminders; computer software for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, weather information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data; computer software for setting up, configuring, operating and controlling mobile devices, wearable devices, mobile phones, computers, and computer peripherals; computer software for social networking and interacting with online communities; computer software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; computer software for the

redirection of messages, internet e-mail, and/or other data to one or more electronic wearable wireless communication devices from a data store on or associated with a personal computer or a server; computer software for tracking and managing information regarding health, fitness, and wellness programs; computer software for use as an application programming interface (API); computer software for use in creating, managing, measuring, and disseminating advertising of others; computer software for viewing digital images and photographs provided as updates for or in combination with head-mounted display screen devices; computer software for wireless content, data and information delivery; computer software for wireless data communication for receiving, processing, transmitting and displaying information relating to fitness, body fat, body mass index; computer software in the field of health, fitness, exercise, and wellness for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data and for tracking and managing information regarding health, fitness, exercise, and wellness programs; computer software that detects user's movements during physical activity, fitness sessions, workouts, to provide personalized fitness scores and assessments; computer software that evaluates a user's fitness level and athleticism, and provides fitness scores; computer software that monitor, track, and compare sport activity and fitness level; computer software that provides a fitness assessment and fitness score by comparing previous athletic performances and fitness levels with future athletic performances and fitness levels, and provides advice and customized workouts for improving in specific areas of a particular sport or fitness activity; computer software that provides tips, coaching, and personalized workouts, to improve the user's fitness score; computer software to enable accessing, displaying, editing, linking, sharing and otherwise providing electronic media and information via the internet and communications networks; computer software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices,

namely, mobile phones, smartphones, handheld computers and computer tablets; computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the three-dimensional rendering of graphics, still images and moving pictures provided as updates for or in combination with head-mounted display screen devices; computer software, downloadable computer software and mobile application software for creating, managing and accessing groups within virtual communities; computer software, namely, an application providing social networking functionalities; computer software, namely, an interpretive interface for facilitating interaction between humans and machines; computer software, namely, software development tools for the creation, debugging, and deployment of software applications for smart glasses, near eye displays, head mounted displays, and smartphones; computers, namely, smartwatches; connection cables; digital video eyewear; digital video eyewear, head mounted video displays, namely, micro screens and associated optics, virtual reality headsets, associated electronics, namely, connection cables and adaptors, software and firmware for displaying video games, electronic media and images; downloadable computer application software for mobile phones, smartphones, computers, tablets, smart glasses, digital video eyewear, wearable digital electronic devices, namely, glasses, goggles, and headsets, head mounted displays, near eye display systems, communications networks, cloud computing services, and computer systems for communicating between the devices, networks and services; downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for displaying icons, determining and responding to user selection of icons, controlling connections to and communication with other devices, networks, and systems, operating a camera to record and display images and audio visual files, organizing digital image and audio visual files, controlling microphones, controlling sound level of built-in speakers, transferring computer files between the smart glasses, near eye display systems, head mounted displays and other devices, networks, and systems, controlling user notifications, controlling a touchpad, controlling and obtaining data from sensors in the smart glasses, near eye display systems, and head mounted displays,

including accelerometers, barometric, temperature, tilt, tip, and yawl sensors, head orientation sensors, and GPS receivers, controlling the speed of the CPU, and sensing and displaying the battery charge level, and displaying, capturing, recording, and streaming data, images, and audio visual content in standard reality, augmented reality, and mixed reality environments; downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for the generation and display of standard reality, augmented reality, mixed reality content; downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for communication with other smart glasses, near eye display systems, and head mounted displays; downloadable computer software for enabling capture, storage, and transmission of photographs, videos, data, and information with a user's biometric, health, and other performance data overlaid and integrated into the recording; downloadable computer software for viewing and interacting with a feed of images, audio, audio-visual and video content and associated text and data; downloadable computer software, namely, downloadable mobile application for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; electric cables; electrical adapters; electronic monitoring devices incorporating indicators that light up and change color based on wearer's cumulative activity level; electronic monitoring devices incorporating microprocessors, digital display, and accelerometers, for detecting, storing, reporting, monitoring, uploading and downloading sport, fitness training, and activity data to the internet, and communication with gaming consoles and personal computers, regarding time, pace, speed, steps taken, athletic skill, calories burned, heart and body rate, global positioning, direction, distance, altitude, navigational and weather information; electronic navigational instruments and apparatus; fitness and exercise sensors, monitors, and displays for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, temperature, and navigational information, to be worn during exercise and for sports activities; gesture recognition software; glasses with the function of wireless communication; global positioning

system (GPS) devices; goggles for enabling virtual reality, augmented reality and mixed reality world experiences; hardware and software to view virtual images in creating virtual, augmented and mixed reality; head mounted video display; head-mounted display screen devices and their component parts, namely, video display cards; headsets; headsets for use with computers; interactive entertainment software; interface electronics, namely, video driver interface circuits for digital video eyewear; location-aware computer software, downloadable computer software and mobile application software for searching, determining and sharing locations; loudspeakers; messaging software; micro displays, namely, head mounted video displays and near eye video displays; mixed reality computer hardware; mixed reality glasses; mixed reality headsets; mixed reality software; mixed reality software for interactive entertainment; mixed reality software for navigating a mixed reality environment; mixed reality software for object tracking, motion control and content visualization; mixed reality software for operating mixed reality headsets; mixed reality software for users to experience mixed reality visualization, manipulation and immersion; mobile application software for creating personalized fitness training programs; motion tracking sensors for augmented reality technology; motion tracking sensors for mixed reality technology; motion tracking sensors for virtual reality technology; multifunctional electronic devices for displaying, measuring, and uploading to the internet information including time, date, body and heart rates, global positioning, direction, distance, altitude, speed, steps taken, calories burned, navigational information, weather information, the temperature, wind speed, and the declination of body and heart rates, altitude and speed; multifunctional electronic devices for displaying, measuring, and uploading to the internet information including time, date, heart rate, global positioning, direction, distance, altitude, speed, steps taken, calories burned, navigational information, changes in heart rate, activity level, hours slept, quality of sleep, and silent wake alarm; near eye display optics, namely, video display screens for mounting near a user's eyes and lenses for displaying images to a user; near eye display systems comprised of GPS sensors, accelerometers, magnetometers, directional compasses, environment temperature sensors, and electronic tip and tilt orientation sensors; near

eye display systems comprising computer hardware, electronic display interfaces, and software for the generation and display of virtual reality and mixed reality content; near eye display systems comprising computer hardware, electronic display interfaces, and software specifically adapted for goggles; near eye display systems comprising eyewear and software for the generation and display of standard reality, augmented reality, and mixed reality content; near eye displays; network communication apparatus, namely, mobile and wearable digital electronic devices for the sending and receiving of text, data, audio, image, and video files across networks; pedometers; peripherals for mobile devices, namely, pedometers and altimeters; personal assistant software; personal digital assistants; personal electronic devices used to track fitness goals and statistics; personal fitness trackers; personal video display devices in the nature of wearable displays for viewing digital content including virtual reality, augmented reality and mixed reality content; personal video display screens; portable, handheld, and personal digital electronic devices for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, and digital files; remote control apparatus for wearable computer hardware and smartwatches; sensors for scientific use to be worn by a human to gather human biometric data, mobile and wearable digital electronic devices for recording, organizing, transmitting, manipulating, and reviewing text, data, audio, image and video files; smart glasses; smart glasses with wired and wireless audio capability; smartwatch bands; smartwatch straps; smartwatches; social assistant software; software and firmware for controlling, configuring and managing controllers; software and firmware for displaying video games and electronic media on display screen devices provided as updates for or in combination with head-mounted display screen devices; software and firmware for operating system programs; software and firmware for video drivers and video processing provided as updates for or in combination with head-mounted display screen devices; software and firmware for enabling electronic devices to share data and communicate with each other; software driver programs for electronic devices for enabling computer hardware and electronic devices to communicate with each other; software for advertisers to communicate and interact with

online communities; software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; software for communicating by wireless local area networks, wireless technologies, and other communication protocols between near-eye display systems and network devices, namely, mobile phones, smart phones, computers, tablets, and other computer systems; software for converting natural language into machine-executable commands; software for creating and managing social media profiles and user accounts; software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer and communication networks; software for creating, managing and accessing groups within virtual communities; software for creating, managing, and interacting with an online community; software for facilitating and arranging for the financing and distribution of fundraising and donations; software for generating images to be displayed in near-eye display system; software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; software for modifying and enabling transmission of images, audio, audio visual and video content and data; software for online charitable fundraising services and financial donation services; software for ordering and/or purchasing goods and services; software for organizing, searching for and managing events; software for planning activities with other users, making recommendations; software for processing images, graphics, audio, video, and text; software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; software for smart phones and other computer systems to generate data, images, and audio for display in near- eye display systems and for transmitting such data, images, audio to near- eye display systems; software for smart phones and other computer systems to receive data from near-eye display systems; software for social and destination mapping; software for social networking; software for streaming multimedia entertainment content;

software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented, mixed and virtual reality experiences; software for use as an application programming interface (API); software for use in creating and designing virtual reality, augmented reality and mixed reality software; software for wireless content, data and information delivery; software in the nature of a mobile application; software that enables individuals, groups, companies, and brands to create and maintain an online presence for marketing purposes; software, namely, an interpretive interface for facilitating interaction between humans and machines; telecommunications apparatus and instruments, namely, speakers and microphones sold as component features of computers, mobile and wearable digital electronic devices for the sending and receiving of telephone calls, text messages, electronic mail, and other digital data, and for use in providing access to the internet; virtual reality glasses; virtual reality headsets; virtual reality software; virtual reality software for interactive entertainment; virtual reality software for navigating a virtual reality environment; virtual reality software for object tracking, motion control and content visualization; virtual reality software for operating virtual reality headsets; virtual reality software for users to experience virtual reality visualization, manipulation and immersion; virtual, augmented, and mixed reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual, augmented, and mixed reality experiences; watches, bracelets, and wrist bands that communicate data to personal digital assistants, smart phones, and personal computers through internet websites and other computer and electronic communication networks; waterproof near eye display systems comprising computer hardware, electronic display interfaces, and software for the generation and display of virtual reality and mixed reality content; wearable activity trackers; wearable computer peripherals; wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable virtual reality, augmented reality and mixed reality world

experiences; wearable digital electronic devices comprised primarily of software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; wearable digital electronic devices, namely, glasses, goggles, and headsets; wearable electronic devices, namely, watches, bracelets, and wristbands that are comprised of software that communicates data to personal digital assistants, smart phones, and personal computers through internet websites and other computer and electronic communication networks; wearable peripherals for computers, tablet computers, mobile devices and mobile telephones, namely, configurable head-mounted displays; wireless computer peripherals.

Class 28 : Virtual reality headsets for playing video games for connection to computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile phones in order to enable virtual reality experiences; electronic and interactive multimedia game consoles; video game interactive remote control units; wearable peripherals for playing video games specially adapted for computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones; game controllers for computer games; audio and visual headsets for use in playing video games; hand-held units for playing electronic, computer, interactive, and video games; gaming devices, mobile gaming devices, namely, gaming machines with or without video output for playing computer games and video games; computer game consoles for use with an external display screen or monitor; apparatus for electronic games other than those adapted for use with an external display screen or monitor; apparatus for electronic games adapted for use with an external display screen or monitor; bags specially adapted for handheld video games and video game consoles; computer and video game joysticks; computer gaming consoles for recreational game playing; fitted plastic films known as skins for covering and protecting electronic game playing apparatus, namely, video game consoles and hand-held video game units; game controllers in the nature of keyboards for computer games; games adapted for use with television receivers; gaming headsets adapted for use in playing video games; hand held joy stick

units for playing video games; handheld game consoles; hand-held electronic games adapted for use with television receivers only; hand-held games with liquid crystal displays; hand-held units for playing electronic games for use with external display screen or monitor; home video game machines; LCD game machines; player-operated electronic controllers for electronic video game machines; protective carrying cases specially adapted for handheld video games and video game consoles; standalone video game machine; stands for electronic game playing apparatus, namely, video game consoles and hand-held video game units; tabletop units for playing electronic games other than in conjunction with a television or computer; video game interactive hand held remote controls for playing electronic games; controllers for game consoles; arcade video game machines; video game consoles; games and playthings; gymnastic and sporting articles not included in other classes; decorations for Christmas trees; body-building apparatus; body-training apparatus; body-training equipment; equipment for sports and games; exercise machines.
